# Opera & Ballet Struggles

**Entertainment venues operate with massive, rotating ensembles**—from characters and performers to hosts and specialty acts. Managing auditions, seasonal contracts, schedules, and ongoing performance evaluations becomes overwhelming without a dedicated system.

Slow Approvals  
Manual Tracking  
Missed Deadlines  
Inconsistent Guest Experience  
Delayed Production  
Administrative Overload  
Misplaced Files  
Poor Availability Tracking  
Scattered Information  
Outdated Profiles  
Compliance Risks  
Increased Costs  
Missing Contracts  
Inefficient Search and Filtering  
Archaic Processes  
Lack of a Centralized System  
Scheduling Chaos  
Unscalable and Inefficient  
Data Unsecure  
Slow Approvals

# Manage casting with confidence & consistency

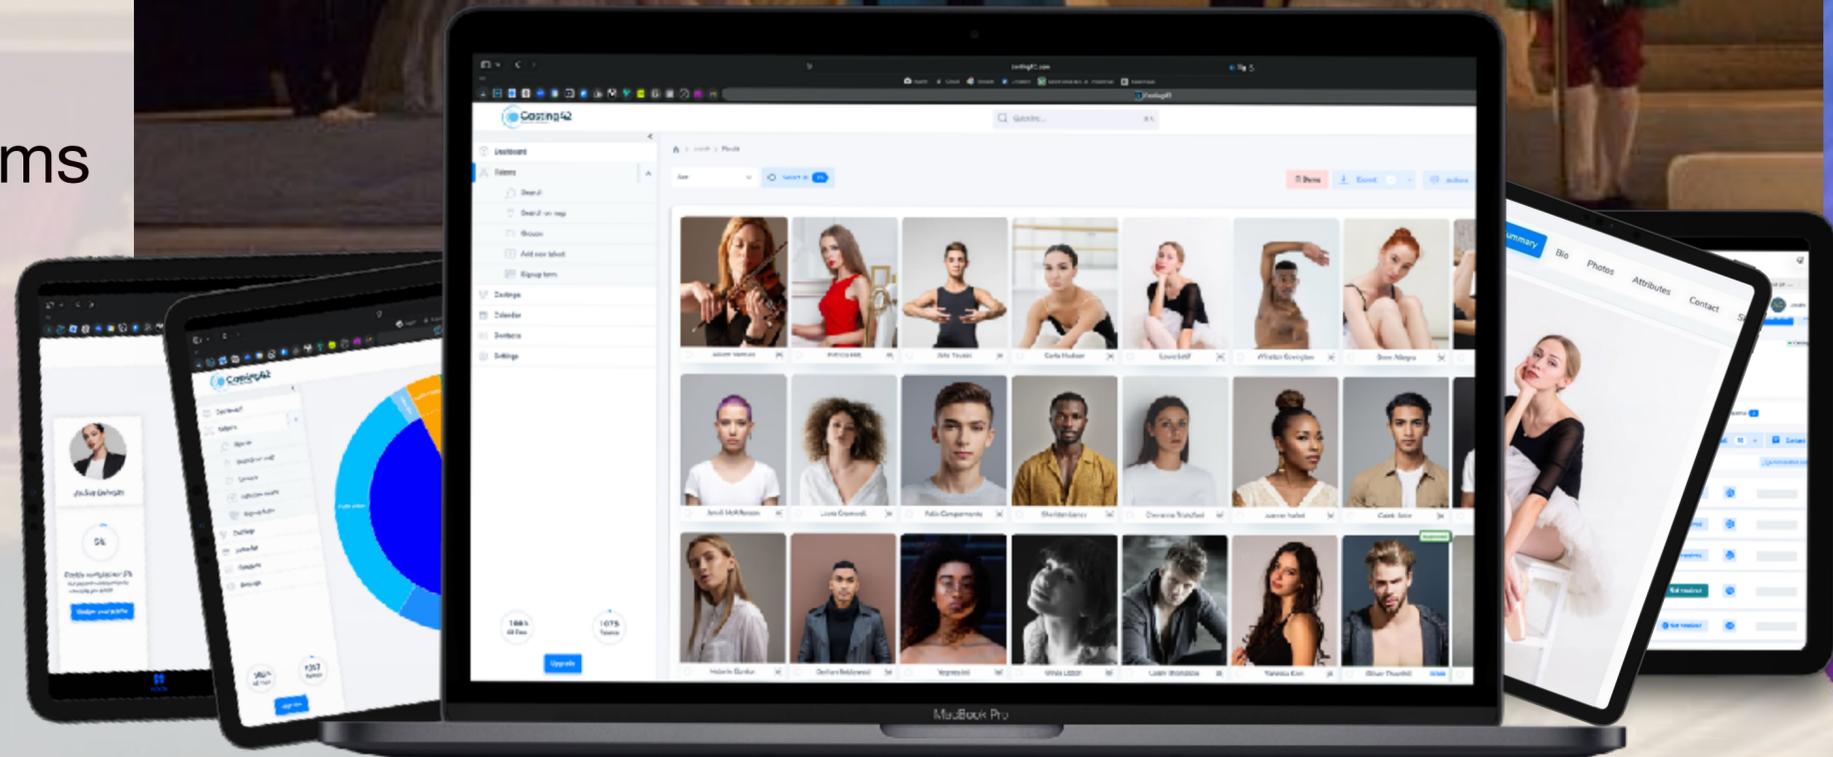

Manage Submissions & Filtering

Track Availability & Scheduling

Integrate Auditions & Approvals

Simplify Coordination Across Teams

Security & Compliance

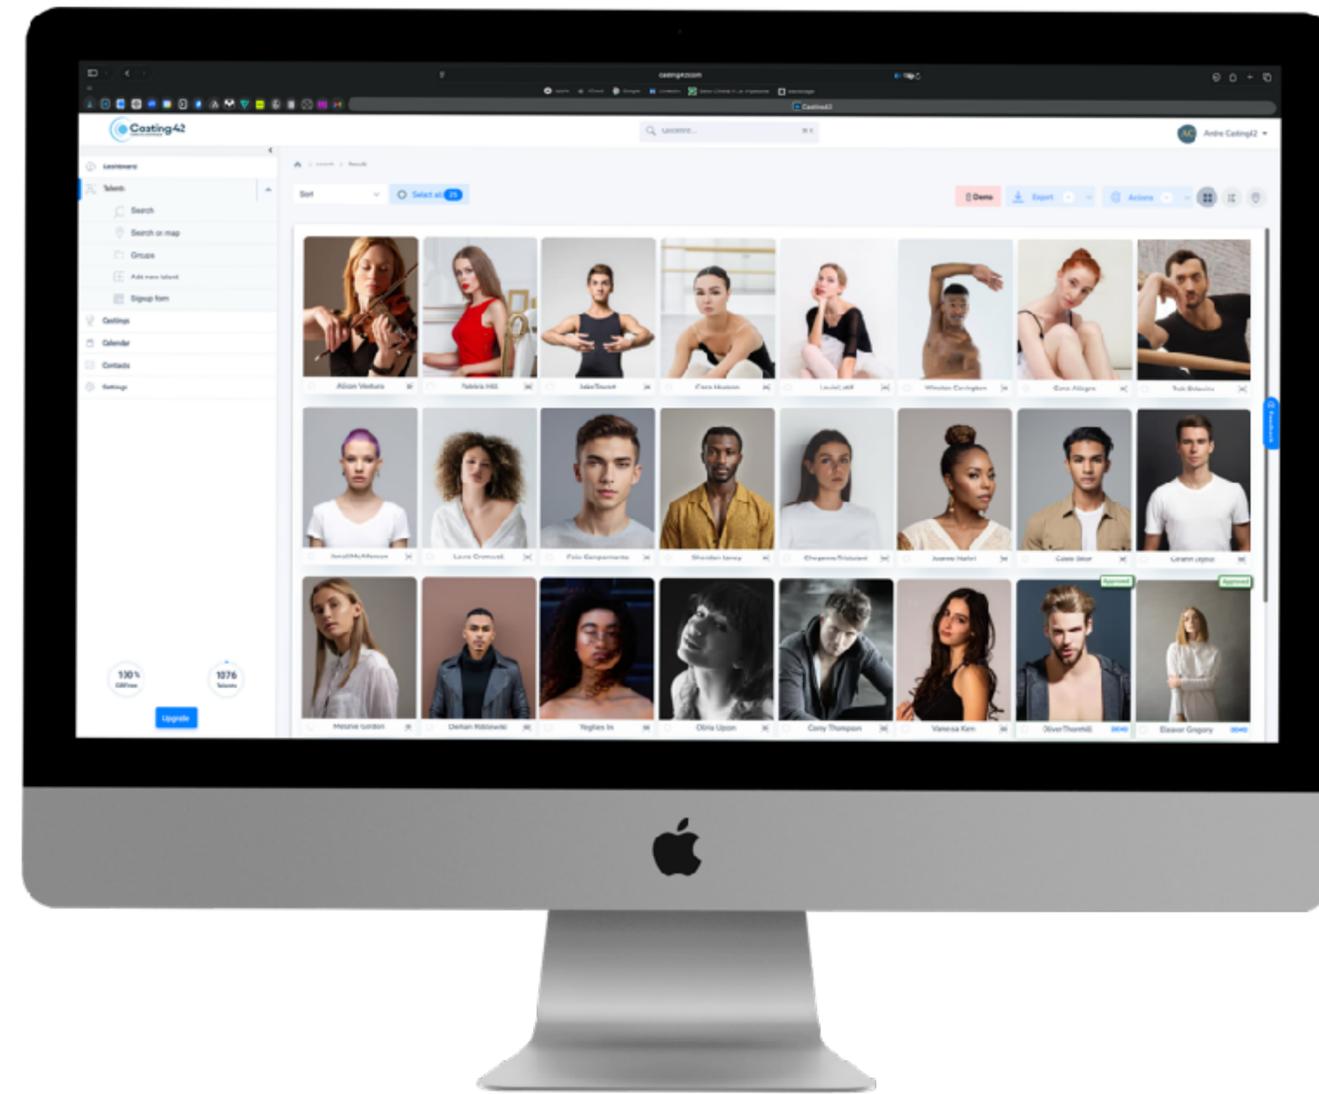

# Manage a Large Database

**Challenge:** High volumes of profiles to organize — local and international performers for musical acts and live shows.

With **Casting42** you can:

- **Centralize with advanced multi-criteria filtering** and search for performers across varying descriptions and genres.
- **Empower self-managed profile updates** — Talent can update photos, reels, and personal details on-demand, ensuring casting data is always current.
- **Group with accuracy** — Tag talent by appearance, skills, language, union status, or availability to match exact casting briefs.
- **Scale on a Cloud Platform** — Support your growing production demands while staying accessible via Mobile and Desktop, no apps required.

# Schedule & Manage Availability

Need to **streamline local talent casting** for mascots, interactive actors, and short-term seasonal events, across calendar confirmations and cancellations.

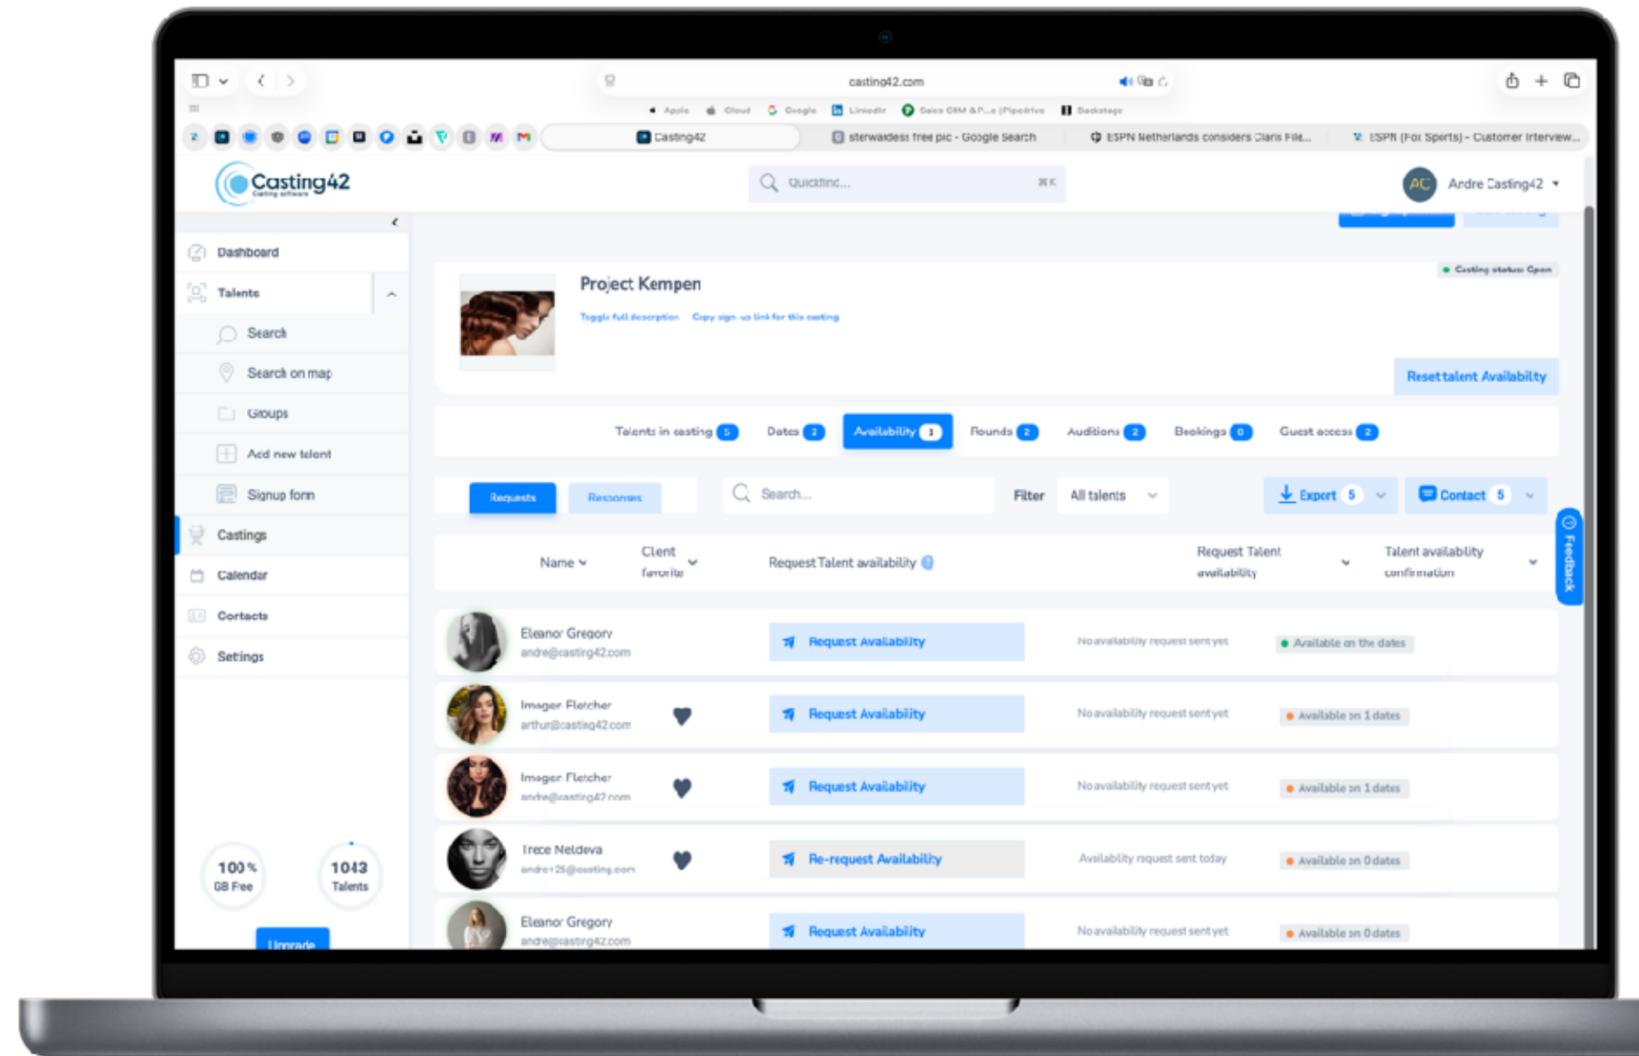

With **Casting42** you can:

✓ **Centralized availability tracking**

— request updates through the interface with automated updates on who's responded, available for fittings, test shoots, and timelines.

✓ **Simplified scheduling and feedback loops** — Coordinate to fill slots, shoot dates, and feedback across large casts effortlessly.

✓ **Re-call & re-cast** — approved characters for seasonal roles in seconds.

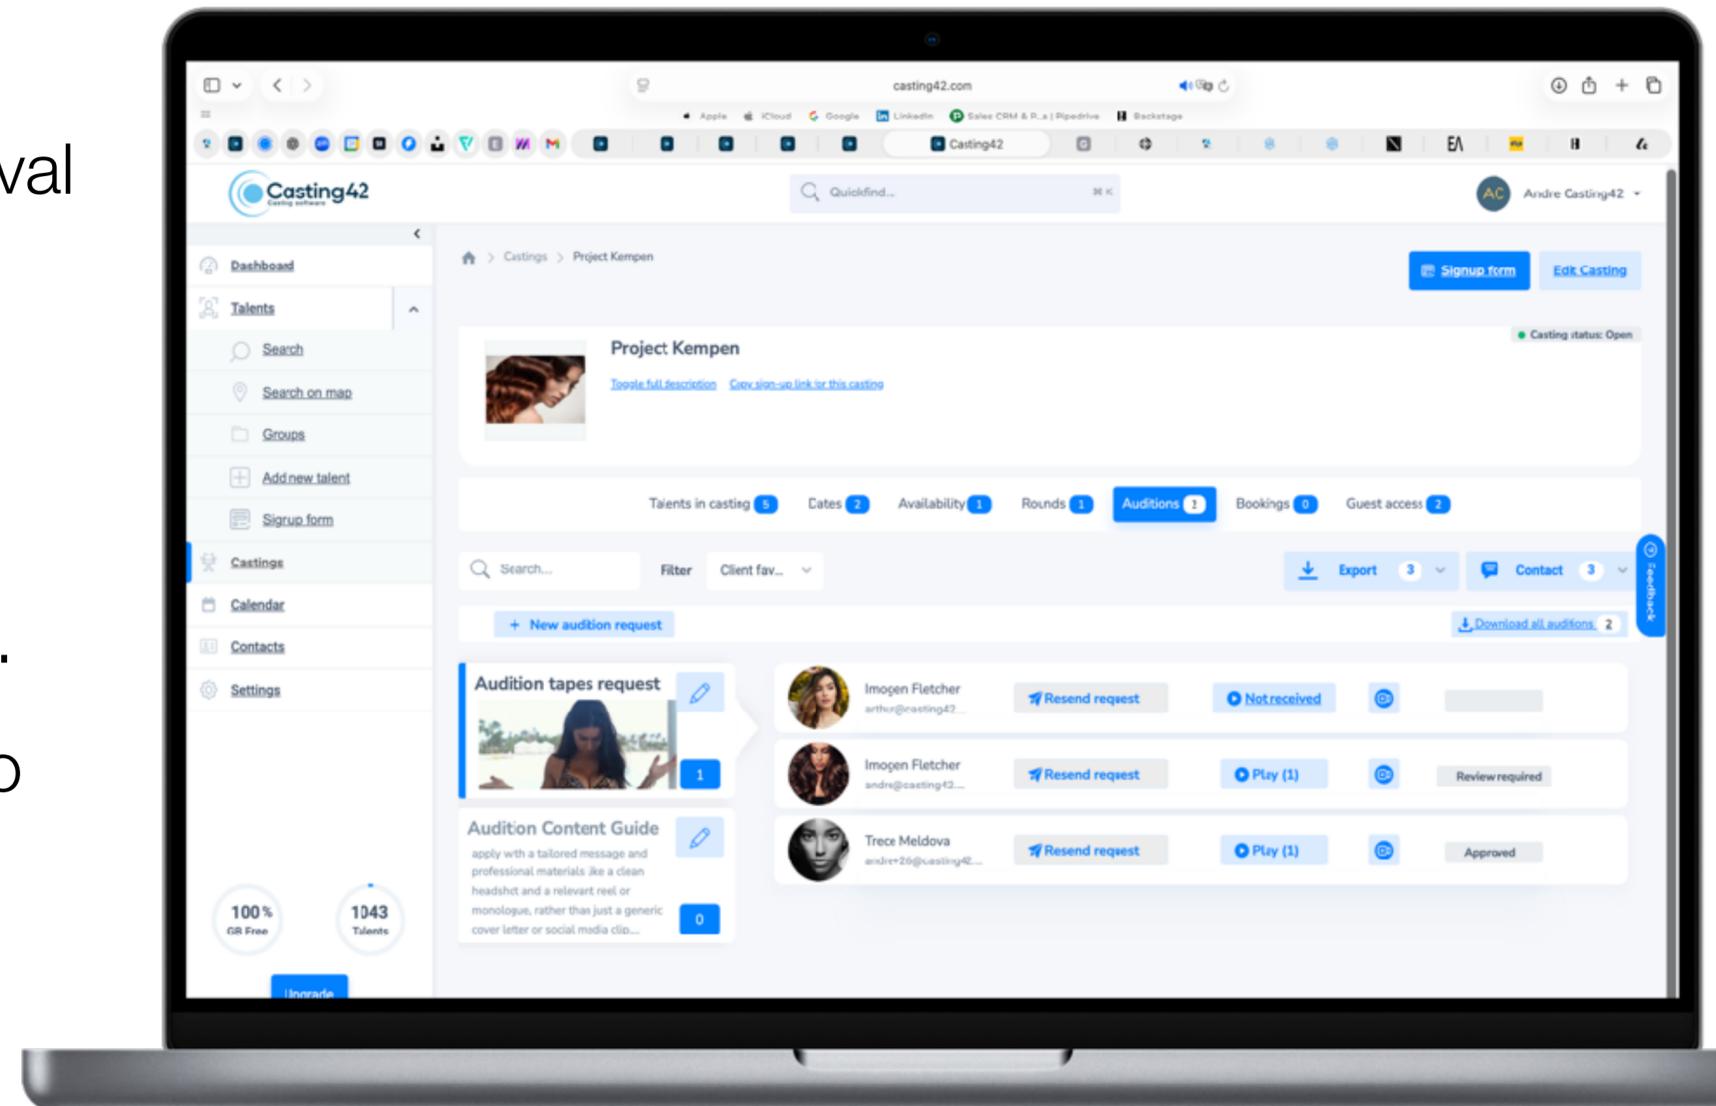

# Integrated Audition Management

Need to use **casting portals** to discover more talent, assess auditions, and manage ongoing entertainment rotations?

With **Casting42** you can:

- ✔ **Integrate video auditions** for fast callbacks, short-lists, approval workflows and accurate performance assessment.
- ✔ **Integrated document management** for agreements, compliance and visa paperwork.
- ✔ **Instantly match performers** to role-search filters for dance, acting, stunts, magicians etc.

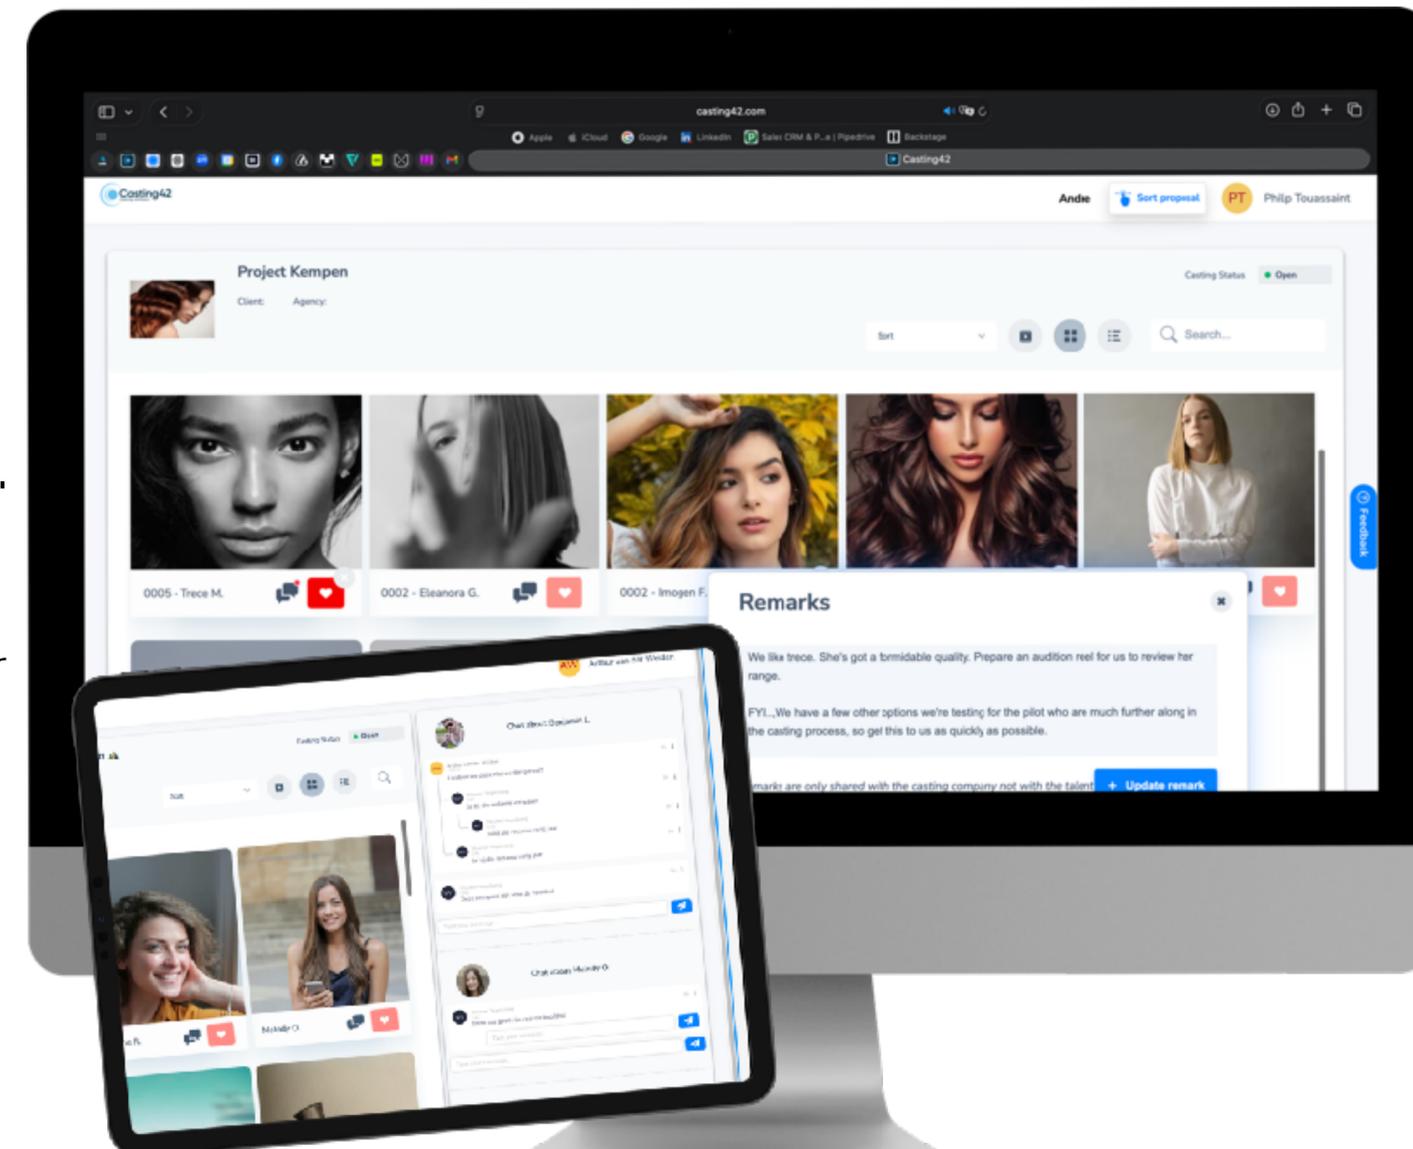

# Streamlined Workflows

Need collaborative casting workflows between organizers and teams without creating chaos.

With **Casting42** you can:

- ✔ **Collaborate Seamlessly** — Invite multiple reviewers to centralize their approval, favorites and feedback on one interface.
- ✔ **Control access to Info** — Share shortlist securely with creative teams or agencies presenting only the select candidate info allowed.
- ✔ **Shortlist agility** — Generate and export PDFs or open guest access. Communicate via SMS or email. All from a single interface.

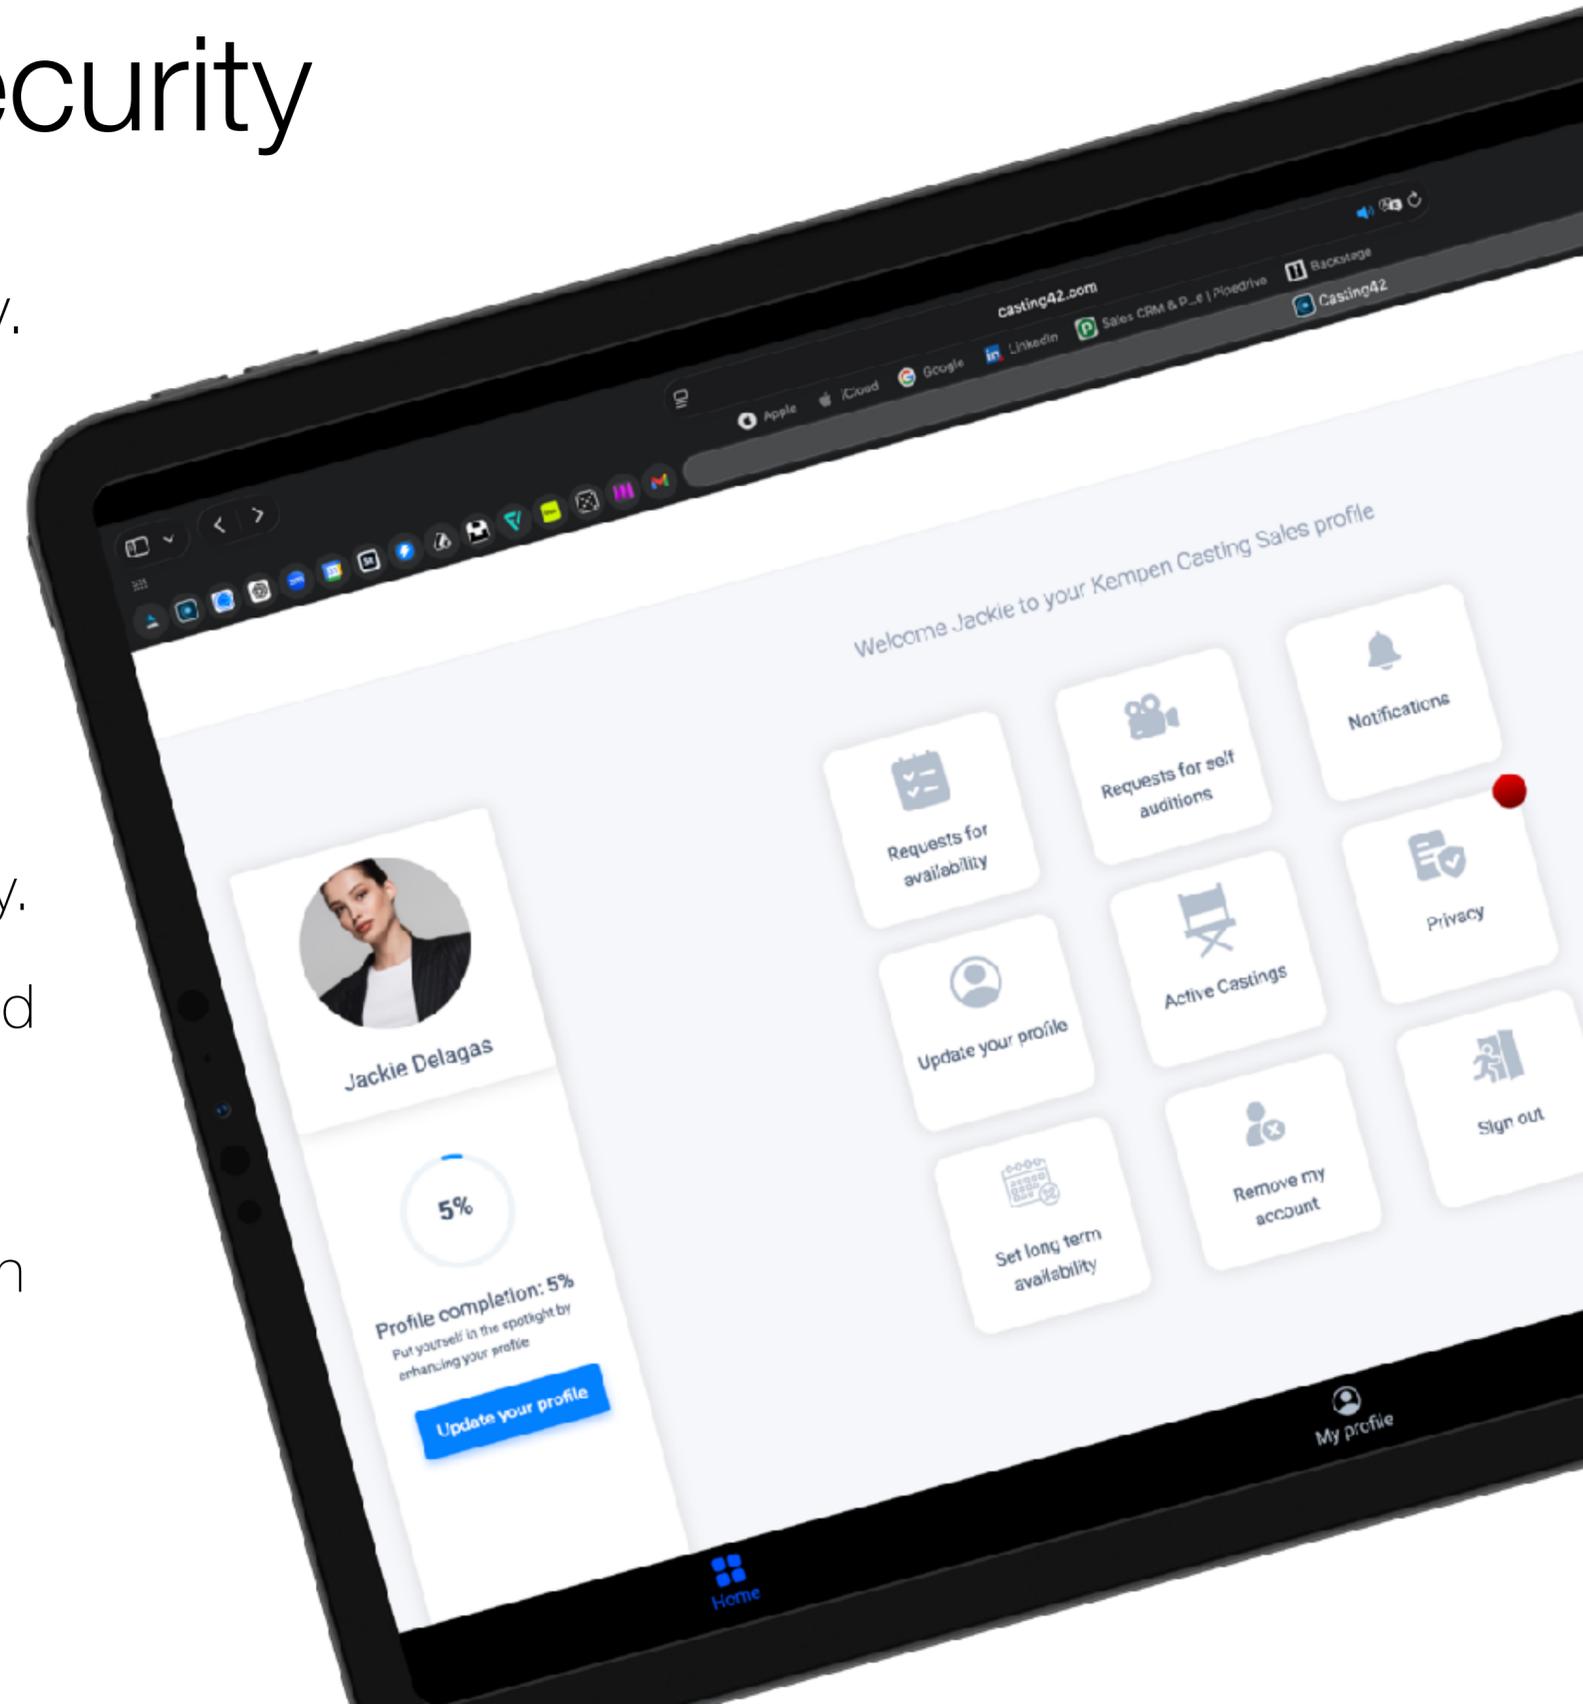

# Data Management & Security

**Challenge:** Maintaining a unified brand experience while ensuring compliance & privacy.

## Casting42 Solution:

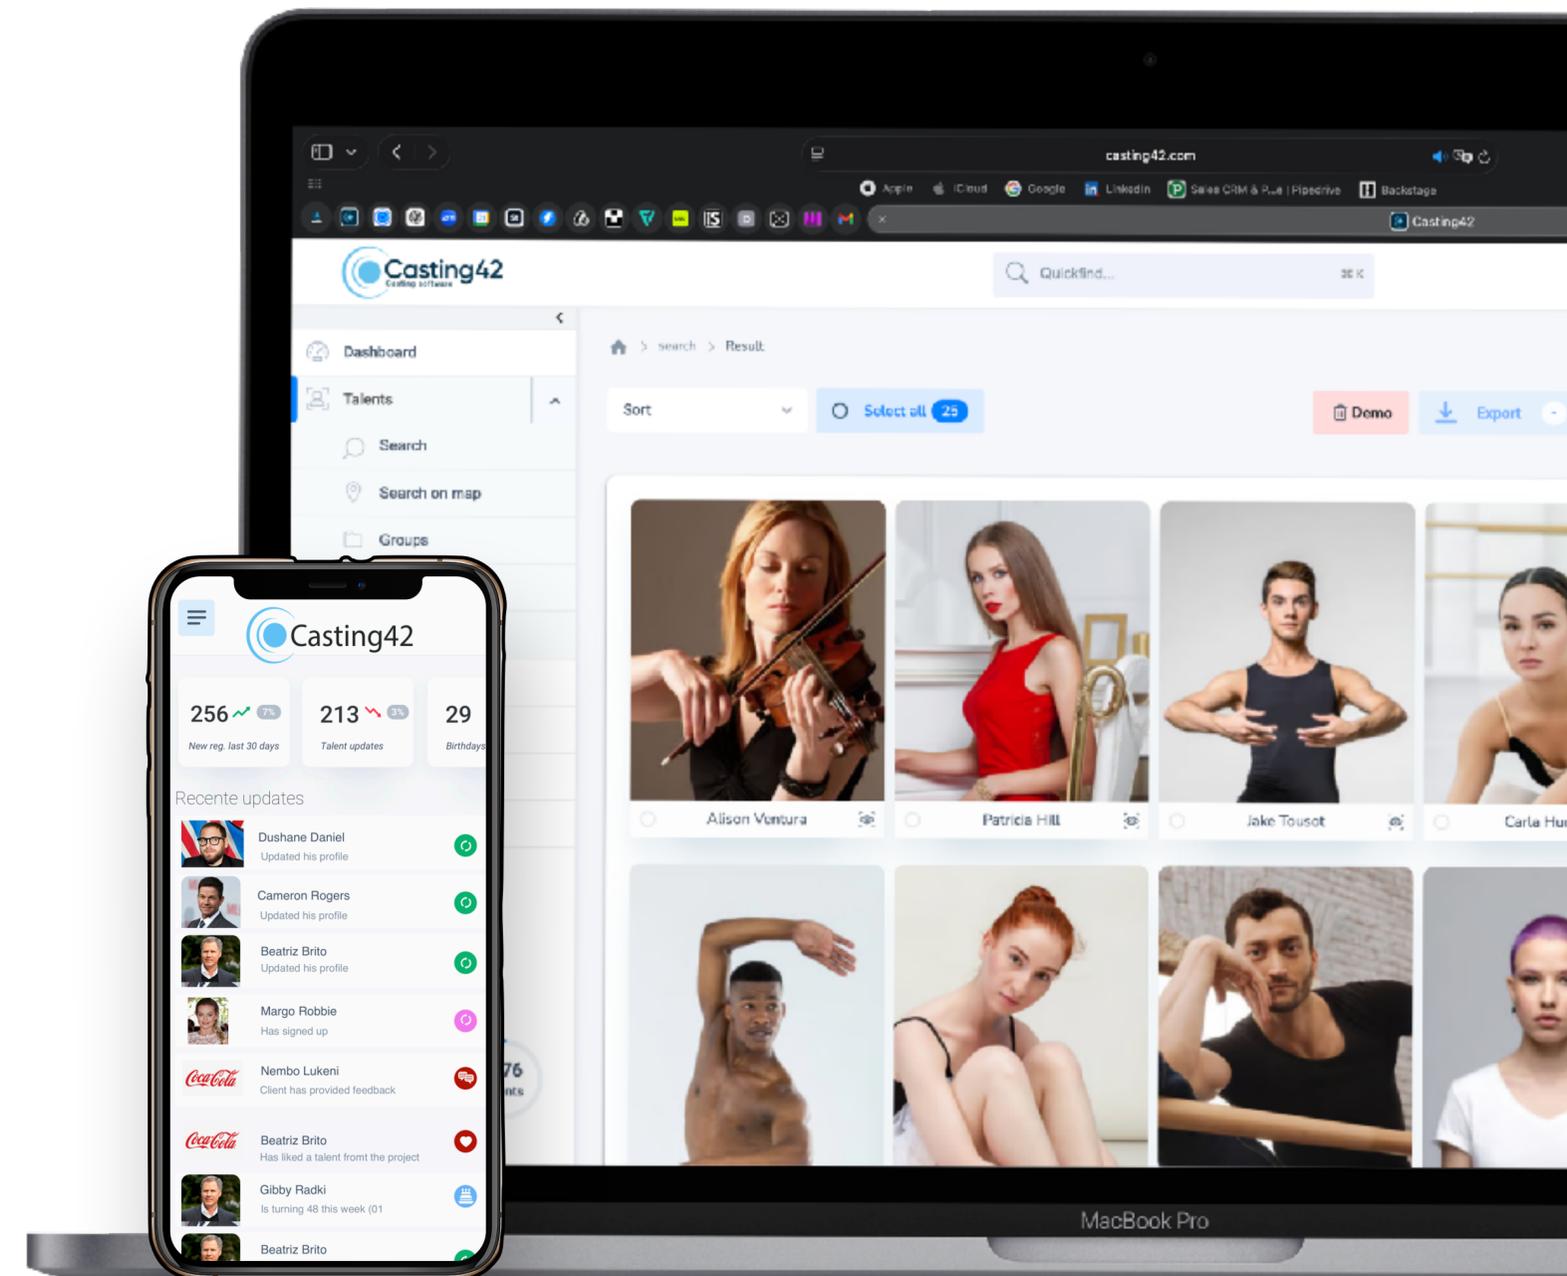

- ✔ **Digital contract management** — store and manage all agreements securely.
- ✔ **GDPR-compliant data handling** — protect sensitive data and manage consent automatically.
- ✔ **Custom access levels** ensuring only authorized personnel can view specific details on each talent.
- ✔ **Cloud-based system** — Eliminate lost files with easy access on desktop or mobile.
- ✔ **2-Factor Authentication**

# Why organizers prefer **Casting42**

- ✓ Faster Hiring Cycles
- ✓ Reduced Admin Workload
- ✓ Consistent Brand Experiences
- ✓ Better Creative Collaboration
- ✓ Security, Compliance & Privacy Tracking

Agencies that switch to Casting42 consistently report improved efficiency, and a significant reduction in time wasted on manual tasks.
